# THE RIGHT LAWYERS FOR YOU

## DATA AND TECHNOLOGY

Today, in times of digital information and the rapid evolution of technology, the burden to adapt to such evolution and protection of data is a matter of concern for businesses.

### HOW WE HELP?

#### **Experience**

We have a team of lawyers having experience of more than 20 years in industrial practices.

#### **Strategy & Consultancy**

We design compliance programs to protect business interests. We advise clients on outsourcing, data protection, information management, communications and mobility, and innovations in technology.

#### **Litigation**

We represent litigations and arbitration for all industrial disputes at multiple jurisdictions worldwide.

### WHERE WE FOCUS?

#### **Data Privacy & Security**

We guide global industries in all aspects of data privacy, security, and information management.

#### **Digital Media, Content & E-commerce**

We provide legal consultation in the fields of intellectual property, technology, E-commerce, corporate law, competition and litigation in global transactions and commercial disputes as well.

#### **Franchise & Distribution**

We help our clients design and restructure distribution systems, draft contracts such as agency, distributorship, franchising and commissionaire covenants, and represent companies in legal disputes globally.

#### **Technology Transactions**

We assess existing contractual relationships, conduct a detailed analysis of debt and risk, design strategies to achieve business goals and advise on the negotiation structure.

#### **Video Game**

We help clients in data protection, Child & consumer protection laws, e-commerce, framing digital content, gambling laws, protection of trademarks in video games and intellectual property rights related to fraudster use.
